Re: Loral Space & Communications Inc. Annual Status Report

Dear Ms. Dortch:

Loral Space & Communications Inc., pursuant to § 25.210(l) of the Commission's rules, hereby submits the enclosed Annual Status Report for fixed-satellite authorizations held by its subsidiary Loral Skynet Corporation (collectively "Loral"). Pursuant to the Commission's Rules, this Report contains the construction status and expected launch dates of unlaunched satellites, as well as transponder utilization and operations information for in-orbit satellites.

The outage report and transponder utilization and performance tables (Attachments A, B and C, respectively), contain certain confidential and sensitive commercial information which would customarily be guarded from competitors and which has therefore been deleted from the attached Report. The satellite services business is subject to significant competition and disclosure of the information contained in the Attachments could result in substantial competitive harm to Loral and its subsidiaries. For example, disclosure of this information could assist competitors in preparing market strategies.

Loral is simultaneously filing, under seal, an original, unredacted version of this Report that contains Attachments A, B, and C. Pursuant to 5 U.S.C. § 552 (b)(4) and 47 C.F.R. §§ 0.457 and 0.459, Loral requests that these attachments be exempted from Freedom of Information Act disclosure requirements and withheld from public inspection.

Please contact me if you have any questions.

Respectfully submitted,
